

CORDURA[®]
combat wool[™] BRAND
F A B R I C

WOOLY
BULLY.

INTRODUCING CORDURA[®] COMBAT WOOL[™] FABRIC.

Wool comfort with the durability of nylon. Constructed with Merino wool and nylon 6,6 fibers, options include canvas, baselayer/mid-layer knits, double face wovens, ripstop, dobby and stretch woven fabrics.

IT CAN BE A BATTLEFIELD OUT THERE. NOW YOU'RE READY.

THE COMFORT AND AESTHETICS OF WOOL WITH THE DURABILITY OF NYLON

CORDURA® Combat Wool™ fabrics have the authentic look, comfort and feel of traditional 100% Merino wool fabrics with built-in long-lasting durability.

Woven fabrics constructed with an intimate blend of nylon and Merino wool offer up to 10X better abrasion resistance, 2.1X better tensile and 1.4X better tear resistance vs 100% Merino wool fabrics while maintaining the same look and feel.*

CORDURA® Combat Wool™ knit and sock fabrics constructed with intimate blends of Merino wool and INVISTA nylon 6,6 staple fibers also offer enhanced tear and abrasion resistance.

CORDURA® Combat Wool™ fabrics feature the tradition and comfort of wool and the heritage of the CORDURA® brand which has proven performance in some of the world's toughest environments.

WORKING WITH CORDURA® COMBAT WOOL™ IS FANTASTIC BECAUSE OF ITS ROBUST NATURE IN HOLDING SHAPE. STRETCH WOVEN CORDURA® COMBAT WOOL™ IS A LIGHTER-WEIGHT RIPSTOP AND MORE DIVERSE FABRIC THAN OTHER WOOL FABRICS. THE SURPRISING ASPECT OF CORDURA® COMBAT WOOL™ WAS ITS ABILITY TO STRETCH LIKE A DENSE FLEECE WHILE MAINTAINING A GREAT RECOVERY.

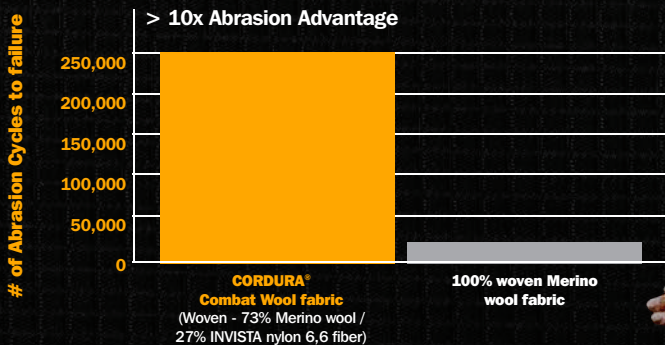

Alex Valdman,
 Lifestyle Designer

CORDURA® COMBAT WOOL™ FABRIC - WOVEN VS 100% MERINO WOOL FABRIC

Martindale Abrasion EN ISO 12947-2*
 Standard Woollen Abrasion with 12KPa weight
