TRY TO WEAR THEM OUT. WE DARE YOU.

- Made of specifically engineered fabric. All fibers are treated for enhanced durability and longevity.
- 100% cotton, 6% lycra for stretch and comfort.
- Engineered and manufactured in the USA for superior performance.
- Colorfastness to sunlight, mildew, and washing for extended wear.
- Will not fade or lose color due to poly-cotton blend, ensuring years of satisfaction.
- Assured comfort and quality, making it the perfect choice for your clothing.

IN-50 Series
CORDURA® BASELAYER Fabrics Printed Hangtags

It's a high-performance knit fabric specifically engineered from a blend of nylon and cotton. Versatile in all climate conditions. Stronger than 100% cotton. And unlike polyester, it won't melt or drip when exposed to high heat in combat. For today's modern soldier, it's a layer of protection you can't afford to be without.

NO MELT/NO DRIP
- Won't melt or drip like polyester
- Reduces burn injury severity
- Helps protect against flash fires

MOISTURE MANAGEMENT
- Absorbs moisture quicker than 100% cotton
- Transports sweat away from skin
- Dries 2.5x faster than 100% cotton

DURABILITY
- Greater strength-to-weight ratio than cotton
- Exceptional abrasion resistance
- Fewer failures due to holes and tears

EXTREME COMFORT
- Feels soft against the skin
- Equivalent air permeability to cotton
- Perfect for everyday wear on base or in combat
